ACCELERATION**SOW**

Reduce the risks associated with projects and services by implementing a uniform system for managing requests for proposals (RFPs), statement of work (SOW) and online auctions for consulting and outsourced service engagements.

FEATURES

- SOW Builder
- Consolidated View of Billing and Invoicing
- End-to-End SOW Management
- Contract Templates
- eAuction
- Configurable Dashboards

WORK EFFICIENTLY

Access From Anywhere – Manage projects across multiple locations and in real-time with on-demand, centralised project tracking

Seamless Integration – Integrates seamlessly with AccelerationVMS or other legacy, ERP and ecommerce systems

Compliance Protection – Standardised workflows and project management provide a layer of protection from internal and governmental regulations

SIMPLIFY SOURCING

Standardise Requests – Establish consistent terms and conditions with uniform contracts

Custom Templates – SOW Builder that includes request for information (RFI), request for proposal (RFP) and request for quotation (RFQ)

Competitive Supplier Selection – Identify suppliers that bring the greatest value to the project in terms of project requirements, budgets and past project history

Multiple Awards, Single Project – Target specific, pre-qualified vendors with distribution that allows for multiple supplier awards within a single project

MANAGE INTELLIGENTLY

Proposal vs. Actual – Display every aspect of a project with a comparative analysis of units, rates and totals between the proposed project scope and the actual work completed

Project Billing Options – Go beyond standard billing types like time and materials, fixed bid or milestone-based billing to configure custom billing types that meet your unique project needs

Supervise Every Step – Award, track and pay suppliers based on fixed price, time and materials or cost-not-to-exceed terms

AgileOne

GAIN VISIBILITY

Project/Proposal/Billing Schedule – See a comprehensive breakdown of each project phase and task including units, rates, totals and dates

Billing Activity by Project – Create reports to monitor the project by date, phase, task, project units, rates, date billed and more

Monitor and Audit – Track costs and milestones through an invoice reporting module that manages the invoice schedules associated with projects

ACCELERATIONSOW HIGHLIGHTS

Scalable and Configurable – Our flexible configuration supports individual department or enterprise-wide talent acquisition management to plug and play with existing screening, billing, HRIS and ERP sy stems.

Seamless Implementation – Dedicated teams and detailed plans ensure new technologies are executed with no interruption to your work flow and in phases that make sense to your organization.

Training and Support – Reference manual and dedicated help desk are available to support your staff through every step of the process including customized manager and vendor training supported by robust online guides and tutorials.

Dynamic Reporting – Get real-time, visual overviews of end-to-end program metrics with executive dashboards or on-demand custom reports.

Security – Data is protected with a multi-layered security approach that leverages unique databases, encryption, password-protection and an effective restore and back-up systems.

Global Reach – Accommodate foreign and domestic recruitment needs including local languages, tax laws, pay policies and recruitment process requirements.

Tailored Options – Incorporate additional Agile•1 technology and service modules to create a total workforce solution that can adapt to your changing needs.

Whether you are engaging a consulting firm, executing offshore projects or outsourcing professional services, AccelerationSOW streamlines every step of the process. Manage all aspects of your statement of work (SOW) projects with an end-to-end technology that significantly reduces risk. Track project budgets, materials and timelines in real-time to realize significant process efficiencies and cost savings.
