About AgileOne

AgileOne designs and develops global workforce and procurement solutions for Fortune 1000 companies. Our focused and consultative approach provides solutions that streamline business processes and deliver efficiencies to human resources, procurement, and suppliers.

From cutting-edge technologies to award-winning services, AgileOne has the resources to provide true total talent management. Minority/woman-owned, with operations in nearly 20 countries around the globe. One World. One Workforce. One Provider: AgileOne.

Solves Challenges By:

- ✓ Becoming the employer of record for the contingent workers who do not qualify as independent contractors or have an existing affiliation
- ✓ Handling all aspects of payroll including payslips and temporary workers
- ✓ Assuming the risks related to issue resolution, consistent communication and employee benefits, while lowering payrolling rates with a "Cost plus model" that provides considerable savings when compared to traditional source talent agencies

By streamlining the on-boarding process, AgileOne delivers a 48-hour enrolment that includes an online application package with electronic signature capabilities. The inclusion of pre-employment screening and verification creates a hassle-free on-boarding process. We ensure correct worker classification and completion of all mandatory requirements, thus improving your workforce risk management.

AgileOne also improves your visibility of cash flow and uses online tools to automate processes like consolidated invoicing, online timesheet entry, and online payslips, while offering access to bespoke worker's guides and improved flexible workforce management. Our CEST questionnaire-passing tools will provide you with new resources that optimize your management of IR35 compliance, legislation compliance, and worker and tax liability compliance.
